

Pelecard

[Activating Pelecard Gateway](#)

interworks.cloud offers a straightforward facility to configure the Pelecard payment gateway. After acquiring your merchant account to Pelecard, you can activate it in your BSS for accepting credit card payments from your customers.

[Using Pelecard for Credit Card Payment via Checkout](#)

Once Pelecard has been configured in your BSS, a new step will be displayed during checkout, where the customer will be redirected to a secure page hosted by Pelecard for entering his credit card details.

[Paying Recurring Subscriptions using Pelecard Gateway](#)

For customers that have entered their credit card details, the interworks.cloud platform charges automatically any recurring subscriptions.
